Directions for Maintenance of Little Free Library Sites

Troop 250 has agreed to check on and maintain the Little Free Library sites that were installed for a Girl Scout Gold Award Project. There are 4 sites that the troop is taking care of. You may check on and do service for all of these or some of them. For each one, you are to:

- Check the library for maintenance needs (repairs, paint, etc.)
- Ensure that the library is full of books and rotate out the books
- Fill the business card/place mark bin in the window of the library

For materials to do the above, check with the Scoutmaster. Troop 250 keeps the materials, including paint and books, in the Troop storage unit.

Addresses for the four Little Library locations we are maintaining (check which ones you are doing or all of them if you are checking all):
